

Nan Hua High School NDLP Compatible iPad List

Nan Hua High School strongly recommends that the iPad is purchased through the school to benefit from the 3-year warranty, 3-year insurance, as well as fortnightly courier service for damaged devices.

Parents who opt not to purchase must ensure that their existing iPads meet the following conditions:

- Compatible with Device Management Application (DMA) software (Support iPadOS 15)
- Must have a compatible stylus and keyboard cover (e.g Apple Pencil, Logitech Rugged Combo 3)
- DMA must be installed on the iPad
- Factory reset will be required (Existing data in the device will be wiped)

The table below shows the iPad models that are compatible with DMA software.

Model Name	*Model Number		Compatible Apple Pencil
	Wifi Only	WiFi & Cellular

Students may also bring their iPad to the ICT Office (Level 4, above Computer Lab 3) to go through a compatibility test.

* Refer to the guide below to find the iPad Model Number

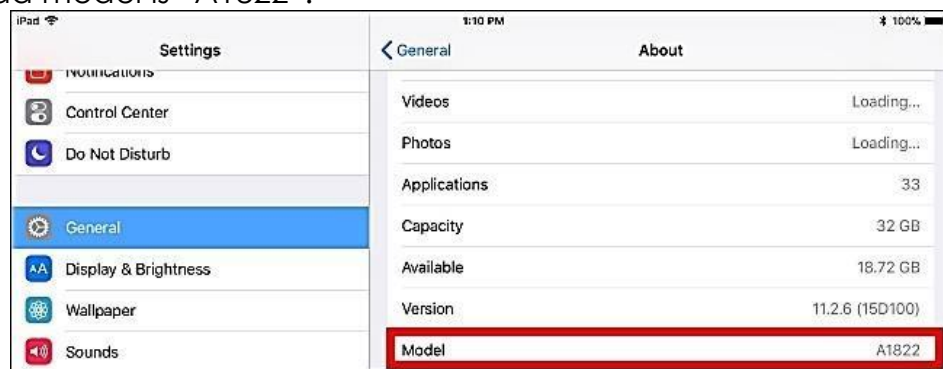

This is the iPad model students will purchase through the school

How to Find the Model Number of your iPad

Method 1:

Open the **Settings** app and tap on **General > About**

Look for the Model entry on this page. You should see a model number beginning with an 'M'. Tap on the Model entry and it will show a model number beginning with an 'A'. The image below shows the iPad model is "A1822".

Method 2:

The model number is printed on the back of your iPad. Flip your iPad over and read the small text printed under the word "iPad". You should see the model number near the iPad's serial number. The image below shows the iPad model is "A1652".
